

Whiskey Station

Pop. 12500

450m diameter, 1.5km walkable circumference

.24 Earth gravity @ 1RPM

37AU from Sol: 7.5 hours via Farcast, 3 months via fast courier, 2 years, 9 months via transport

The Rings: .25g mixed commercial, residential, and infrastructure space. Divided into 36 blocks, 18 per ring. 20m avenues separate each block

The B-Towers: High-density residential and leased business space. Towers are the primary pedestrian transfer points between the inner and outer ring, and between the Rings and the Hub.

The Spokes: 10m fast lift tubes. Zero-to-low-g transfer, optimized for cargo transport to and from central hub.

The Hub: Fore and aft micrograv bays with limited (pricey) long-term docking space. Emergency ops and evac space.
